Price:

3500.00 \$

1968/1969 Diesel John Deere Tractor. In fair condition. Great project for someone interested. Tractor has not ran or been moved in several years. Probably needs a battery and water in the radiator (was drained before the snow flurries). I do not know anything about tractors so I will not be able to answer any questions. If interested we can set up a time to meet.
