Free

Everything you need to know to set up and run SQL Server in one training. From setup on Windows Server to various queries and stored procedures. Apart from this, you will also learn how to establish connections, how to establish them in C#, how to use file tables, how to create jobs, and use other more advanced features of SQL Server. Course conducted by Taurius Litvinavicius.

Join Now for the training: <https://bit.ly/3u4vA2s>
